PROFESSIONAL EXPERIENCE

Data Analyst

2024 - Present

Ministry of Oil and Gas, Libya (On-site & Remote)

- Analyze complex datasets using Excel and Google Sheets to support decision-making and maintain accurate, reliable data across reporting platforms.
- Develop professional reports and interactive Power BI dashboards that present key performance indicators and industry trends to stakeholders.
- Translate complex operational information into clear visual summaries and presentations for non-technical audiences.

Data Entry Clerk

2024 - 2025

High National Election Commission, Libya

- Managed end-to-end voter registration data with a strong focus on compliance, accuracy, and data quality.
- Resolved data discrepancies, processed large volumes of entries, and improved database integrity for election-day operations.

Graphic Designer / Front-End Developer

2023 - 2024

St. Clair College - El Mercadito, Windsor, ON

- Created detailed wireframes and cohesive interface designs in Figma and Adobe Photoshop, supporting clear navigation and visual consistency.
- Designed graphics in Adobe Illustrator and developed responsive web pages using HTML5 and CSS with cross-device compatibility.
